

UNIT FIRE PREVENTION PLANNING RESPONSIBILITIES

9005

(No. 4, March 1991)

The Unit Chief will set specific objectives and allocate resources for successful implementation of the unit fire prevention plan. The Unit Division Chief will coordinate the yearly prevention planning effort by working with the local camp rangers, forest managers, VMP coordinators, CFES coordinators, and resource management personnel in proposing allocation of resources for plan implementation. The unit fire prevention staff will coordinate the activities of all field personnel involved in the development of specific prescriptions. The unit prevention staff will provide technical assistance to ranger district/battalion chiefs by addressing implementation, loss reduction, indirect and maintenance activities in the draft unit fire prevention plan.

The unit fire prevention staff must include the following local procedures into the unit fire prevention plan:

Burning permit administration (Chapter 9205, H. B. 9000).

Cost recovery procedure ([H. B. 9400](#)).

Law enforcement procedure ([H. B. 9400](#)).

Inspection procedures (Chapter 9210, H. B. 9000).

Red flag alert procedures ([Chapter 9010](#), H. B. 9000).
